# ORGANIZE, PROTECT AND CARRY

**TWINTIP®** bags are specially designed and developed for RC models.

They allow you to organize, protect and carry your material and all the accessories through a dedicated bag developed with a technical, functional and comfortable design.

## QUALITY AND DURABILITY

**TWINTIP®** bags are made with the highest grade of quality for all the materials used during the production process.

Our bags are fully padded with high density foam to provide the best protection for your equipment.

### RC car section

(On & Offroad car settings) example

Store easily your **1/10 RC car** into an adjustable and safe dedicated compartment. Your car is perfectly hold with 2 elastic straps.

### dirt cover

Keep it clean ! Our exclusive «dirt cover» protects your inside bag while your car is dirty.

### manual pocket

A dedicated zip pocket has been designed for your manual or any other document you want (A4 format).

### left pocket

Multi-uses pockets, with 2 mesh pockets for your accessories, plus a phone or audio player pouch. And a specific mesh pocket for the fuel bottle.

### tools section

Keep on hand the essentials and most used tools. The antenna can also be stored in a dedicated holster if needed.

### clips holder

Don't loose any more baby clips. This dedicated strap allows you to store them while you are working on your RC car.

### inside pocket

Here is a flexible area with different pockets, it is up to you. We designed several pockets: batteries pockets and mesh accessories pockets with a flexible front area for any of your equipment.

### radio section

Your radio is perfectly stored and protected into this dedicated lower fully padded compartment. An elastic tape hold it safely. Most of the radio in the market can fit in this compartment.
